DIGITAL SURFACE PROFILE GAGE

- Measure peak-to-valley height of blast cleaned surface.
 If the profile is too low, the adhesion of the coating to the surface will be reduced.
 - If the profile is too high, there is the danger that the profile peaks will remain uncoated, allowing rust spots to occur.
- Meet ASTM D 4417-B
- Zero set block is included, set zero before measurement
- Button function: tolerance Go and No-Go display, data preset, measuring direction change, max./min./TIR measurement, inch/metric conversion, absolute/incremental measurement
- CR2032 battery, automatic power off (time is adjustable)
- Data ouput
- Stainless steel base
- Optional accessory: data output cable (code 7315-50M, 7302-40M)

set zero
